

Report: Turkmenistan Upstream and Oil Field Market 2013

180 pages and over 200 graphs and tables (please refer to the full list below). Data for the last 5 years (ending December 2012). The geological details of some of the largest fields were included in the report. A forecast of the market development until 2020 is included. All key data in the graphs is numerical. An easy-to-use electronic version (paste and copy, printing). Ready for delivery.

This is the first report that places value on Turkmenistan's OFS Market. This \$1.5 billion market provides many opportunities to oilfield services companies. Large offshore and onshore developments as well as resolved issues of gas export will lead to the market growth in the next several years.

Report price: \$5000 (USD)

THE REPORT CONTENT

1	Abstract.....	11
2	Turkmenistan oil and gas reserves.....	12
2.1	Amudarya Basin.....	12
2.2	South Caspian Basin.....	20
3	Oil and gas industry's development in 2001-2011	26
3.1	Oil and gas industry structure and role in Turkmenistan economy	28
3.2	Legal framework of Turkmenistan	30
4	Oil and gas production and forecast till 2020.....	32
4.1	Gas production, consumption and export in 2001-2012.....	32
4.2	Crude and condensate production, consumption and export	34
4.3	Turkmenistan crude and gas production forecast for 2013-2020	36
5	Key upstream activities in 2007-2012 and forecast till 2020	39
5.1	Drilling and wells completion in Turkmenistan	39
5.2	Well stock and well workover/well servicing operations	42
6	Turkmenistan OFS market in 2007-2012 and forecast for 2013-2020.....	47
6.1	Market size estimates	47
6.2	Forecast methodology and forecasted market dynamics till 2020	51
6.3	Drilling segment in 2007-2012 and forecast till 2020	54
6.4	Rig mobilization and assembly segment in 2007-2012 and forecast till 2020	56
6.5	Drill bits and drill bits program segment in 2007-2012 and forecast till 2020	58
6.6	Turbines servicing and supervising in 2007-2012 and forecast till 2020	60
6.7	Drilling fluids in 2007-2012 and forecast till 2020	62
6.8	MWD/ LWD and directional drilling segment in 2007-2012 and forecast till 2020	64
6.9	Pressure pumping services market in Turkmenistan in 2007-2012 and forecast till 2020.....	67
6.9.1	<i>Cementing in 2007-2012 and forecast till 2020.....</i>	<i>69</i>
6.9.2	<i>Hydro fracturing market in 2007-2012 and forecast till 2020.....</i>	<i>71</i>
6.9.3	<i>Coiled tubing segment in 2007-2012 and forecast till 2020</i>	<i>72</i>
6.10	Wireline services market in 2007-2012 and forecast till 2020	74
6.10.1	<i>Open Hole Logging in 2007-2012 and forecast till 2020.....</i>	<i>76</i>
6.10.2	<i>Cased hole logging segment in 2007-2012 and forecast till 2020</i>	<i>78</i>

6.10.3	Perforation segment in 2007-2012 and forecast till 2020.....	80
6.11	Well servicing/ workover market in Turkmenistan in 2007-2012 and forecast till 2020	82
6.11.1	Workover and completion by workover crews in 2007-2012 and forecast till 2020.....	84
6.11.2	Well servicing in 2007-2012 and forecast till 2020	85
6.12	Sidetracking market estimates in 2007-2012 and forecast till 2020	86
6.13	Seismic services market in 2007-2012 and forecast till 2020.....	88
6.14	Artificial Lift Services segment.....	89
7	Turkmengas (Turkmengazy)	91
7.1	Drilling and other OFS activities and spending of Turkmengas.....	93
7.2	Service divisions and other subcontractors of Turkmengas	96
7.3	Large gas fields geology and location	97
7.3.1	Dovletabad gas and condensate field.....	98
7.3.2	Shatlyk gas and condensate field.....	100
7.3.3	Samandepe gas and condensate field.....	100
7.3.4	Zeagli-Derveze gas field.....	102
7.3.5	Bairamali gas field.....	102
7.3.6	Yashlar gas field.....	103
7.3.7	South Yoloten gas and crude oil field (new field).....	104
8	Turkmenneft (Turkmennebit)	107
8.1	Drilling and other OFS activity and estimated annual spending of Turkmenneft	109
8.2	Sample of wells design in Turkmenneft	115
8.3	Service divisions of Turkmenneft and known subcontractors	120
8.4	Turkmenneft production units (NGDU) and some fields geological details	121
8.4.1	Koturdepeneft and Koturdepe (Goturdepe) oil field	123
8.4.2	Nebitdagneft	125
8.4.3	Kumdagneft and Kumdag (Gumdag) oil and gas field.....	126
8.4.4	Kamyshlydzhaneft and Kamyshlydza field	128
8.4.5	Chelekeneft (Turkmenneft subsidiary).....	129
8.4.6	Korpedzhe gas unit.....	130
8.4.7	Keimir.....	131
8.4.8	Khazar (Turkmenneft PSA with Mitro International)	131
9	Turkmengeologia (state exploration company).....	133
9.1	Turkmengeologia service divisions and apparent capacities	133
9.2	Turkmengeologia apparent activity levels and estimated annual OFS budget	134
10	PSA projects	137
10.1	Drilling and other OFS activity of PSA projects	140
10.2	Dragon Oil (Cheleken Contract Area).....	143
10.3	PETRONAS Carigali (Block I)	152
10.4	ENI (Burren Energy PLC and Nebitdag).....	155
10.5	CNPC (Bagtyyarlyk)	157
10.6	CNPC (Kumdak)	158
10.7	RWE Dea AG (Block 23).....	159
10.8	ITERA	159
10.9	Buried Hill Energy (Block III)	160
10.10	Other PSA projects	161
10.10.1	Maersk Oil (Blocks 11-12).....	161
10.10.2	Wintershall (Blocks 2-6)	161
10.10.3	Mubadala Development Co (Blocks 9 and 20)	161
11	Pipelines and their role in the hydrocarbon production growth.....	163
12	Oilfield Service Providers Briefs	168
12.1	State service companies	168

12.2	EDC (Eurasia Drilling Company).....	169
12.3	NIOC (Iran-Khazar jack-up).....	172
12.4	CNPC as OFS Company	173
	12.4.1 CPECC (China Petroleum Engineering & Construction Corporation)	176
	12.4.2 Chuanqing Drilling Engineering Co., Ltd.....	176
12.5	SINOPEC	177
12.6	Yug-neftegas	177
12.7	NAFTNA INDUSTRIJA SRBIJE (NIS)	178
12.8	Continental Industrial Supply Ltd (CIS)	180
12.9	Schlumberger	181
12.10	Weatherford	183
12.11	Haliburton	184
12.12	Baker Hughes.....	186
12.13	Camesola Investment Ltd and IPMash (Ukraine).....	188

LIST OF FIGURES AND TABLES
